**Print speed indicates an approximate print speed and is measured from the time a card feeds into the printer to the time it ejects from the printer. Print speeds do not include encoding time or the time needed for the PC to process the image. Process time is dependent on the size of the file, the CPU, amount of RAM and the amount of available resources at the time of the print.

The Fargo DTC300 Card Printer/Encoder has been tested to ensure that it meets Microsoft® standards for Windows® compatibility.
